

You've already made the right first step to get the best auto insurance. Here's how to help your Independent Safeco Agent finish the job.

"It's really easy for me to recommend Safeco, because they know that customers get the best policy to fit their needs when they work with an independent agent."

It takes two people to get the best auto insurance coverage. You and your Agent. The options you choose and the information you provide will have a direct impact on your insurance. Here are a few things to think about and discuss with your agent:

- How a higher deductible can lower premiums.
- Available discounts for good drivers and good students.
- Checking insurance costs before buying a car.
- Saving money by insuring your cars and home with one company
- Theft deterrent discounts.
- Multi-car discounts.
- Payment options that can save you money.

When you buy auto insurance you should know what you're getting. Here are some explanations of common insurance coverage terms.

These protect you and other people:

Liability. This coverage protects you from expenses related to bodily injury or property damage you or your car cause in an accident.

Medical. This covers medical expenses for you and your passengers that result from an accident.

Uninsured/Underinsured Motorist. This pays for expenses associated with bodily injury or death from an accident caused by an uninsured, underinsured or hit-and-run driver who is at fault.

These protect your car:

Collision. This pays to repair the damage done to your car due to an accident.

Comprehensive. In most situations, this pays for damage done to your car in some way other than a collision. For example, if your car is stolen or vandalized.
